

The Worrysaurus

When the little worrysaurus felt worried he opened his tin that had happy things within.

The things that made the worrysaurus happy were:

- A special stick
- His teddy ned
- A pebble
- A letter

Try and have a go at drawing the things that makes you feel happy.

Try and have a go at writing a name label next to the item that makes you feel happy.

Could you make a tin/box with the items that makes you feel happy when you are worried?
