

3D Shape Challenge

We are learning the names of 3D shapes.

Cuboid

Cylinder

Sphere

Cube

Cone

At home try and find some objects that are 3D shapes. I found a cereal box (cuboid), a ball (sphere) and a can of soup (cylinder). Look back at the presentation Miss Davies has uploaded to help with what the 3D shapes look like and the names of the 3D shapes.

Try and find different 3D shapes in your home.

Miss Longshaw.
